SUSTAINABILITY

How we make labels responsibly.

Our certifications, our materials and how our factory is assessed, in one overview.

2026

OUR APPROACH

Measured, certified and open to your audit.

We manage the environmental and social side of our factory against independent standards, and share the results with our customers.

Our operations

Energy and emissions, water and wastewater, chemicals and waste are assessed every year with the Higg Facility Environmental Module.

Materials

Recycled polyester certified to GRS, FSC Mix and FSC Recycled board, water-based inks and solvent-free adhesives.

People

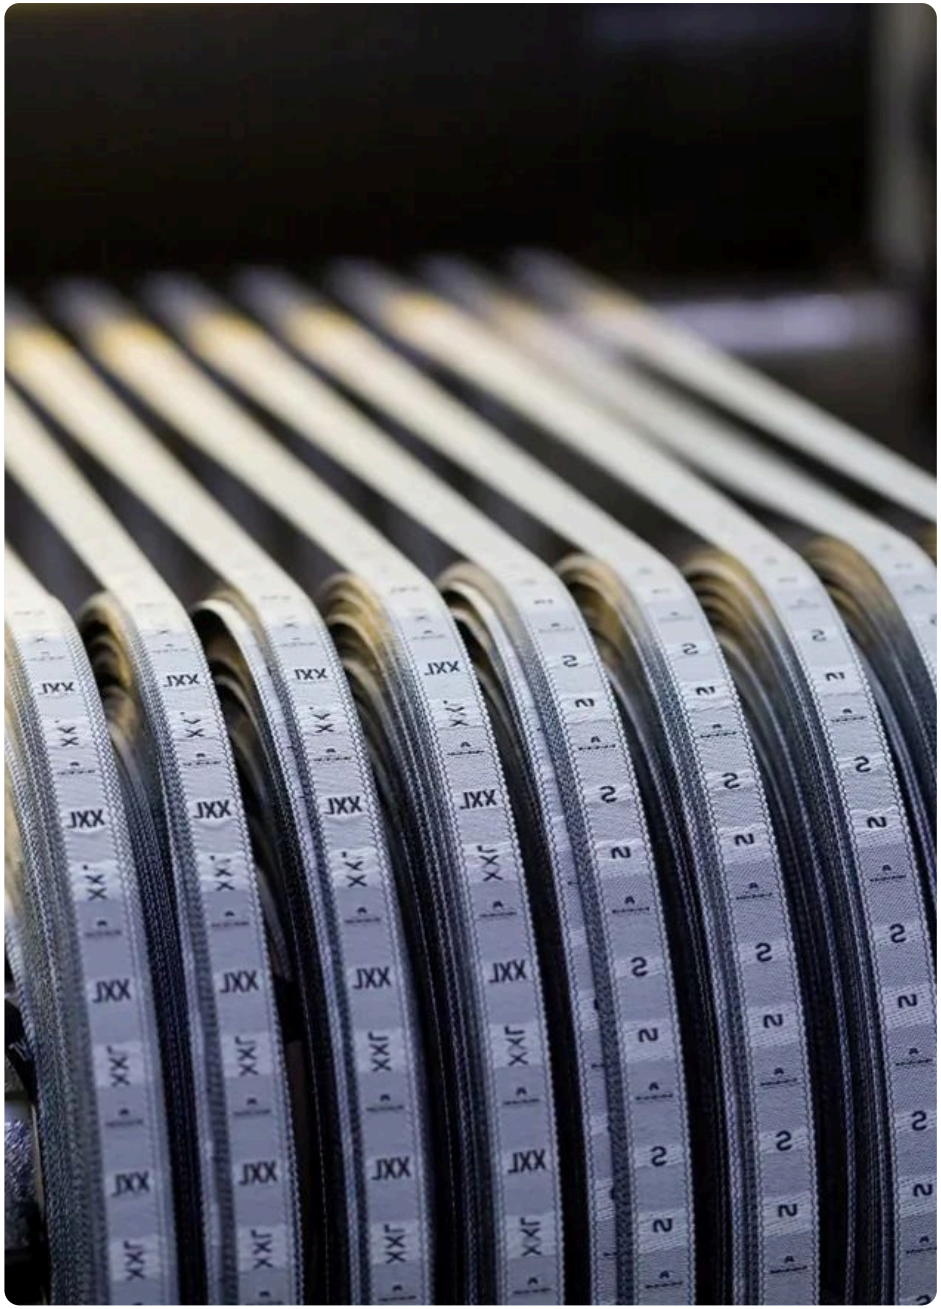

An active Sedex member, with a Speak up channel open to employees, suppliers, their workers and anyone else.

CERTIFICATIONS

Certificates you can check.

OEKO-TEX STANDARD 100	09.HTR.66608 and 21.HTR.58921 · product class I, the strictest · Hohenstein
Global Recycled Standard	USB-00052788-GRS-2606 · production, printing, weaving · USB Certification
FSC chain of custody	SGSCH-COC-009828 · FSC Mix and FSC Recycled paper and board · SGS
ISO 9001:2015	TR26-00180-Q-03921 · label manufacturing, screen and offset printing · EOS Certification

Also: bluesign system partner; Higg Facility Environmental Module; Sedex member; Fogra.

MATERIALS

Lower-impact materials for your labels.

Recycled polyester yarn

Spun from recycled PET, certified to GRS from the recycler to your label, with a transaction certificate on request.

FSC-certified board

FSC Mix and FSC Recycled paper and board for hangtags, inserts, stickers, bags and boxes.

Water-based inks

Water carries the pigment instead of a solvent, and screens are cleaned with water.

Solvent-free adhesives

Self-adhesive labels and stickers with permanent or removable adhesive, without solvents.

Organic and recycled cotton

Cotton labels and tapes that feel natural next to the skin.

Chemical management

Chemicals chosen and handled under the bluesign system; labels tested to OEKO-TEX STANDARD 100, class I.

REGULATION

Ready for the rules reaching labels.

PPWR

Packaging

Applies since 12 August 2026; hangtags count as packaging.

EUDR

Deforestation

Paper and board must be deforestation-free and traced, from 30 December 2026.

ESPR

Digital passport

The textiles act is expected in 2027; the label carries the passport's data carrier.

FLR

Forced labour

Products made with forced labour are banned from 14 December 2027.

CSDDD

Due diligence

Applies to the largest companies from 26 July 2029.

> This overview carries no environmental figures yet. Our Higg FEM results and certificates are shared on request through our compliance team.
